Adam Graham
Jason Kendall
Nick Millington
Christina Valente

6 MONTH PROMO

Coupons in Denmark? Christopher to follow-up with Gregor

OPEN FEATURE REVIEW

Proposed [V2 Prioritized Feature List](#) has been reviewed and agreed to.
This will be added to next week's status report (Monday, June 2).

Notes from the discussion:

ADD TO MY LIBRARY

First time making changes to the Google implementation via SMAPI
If deletion poses risk to system, may need to make "Add only" feature

LOCK SCREEN CONTROLS

Debajit to provide best practices for Sonos team

Sleep volume controls are TBD. Debajit to investigate and follow-up with the Sonos team

MULTI-DEVICE

Adam to investigate the earliest possible release vehicle for explicit or implicit play (set in the getMediaURI flag in the request object).

LISTEN NOW

GetLast Update API changes for Listen Now:

- Fix 2 line display issues initially
- getLastUpdate changes are longer term

SMAPI PLAYLISTS

Longer IDs are needed for featured and recommended Playlists. This should be deployed earlier to support a CY2014 Holiday deployment due to backward compatibility issues.

NEXT STEPS

Team coordination on specific technical changes to support prioritized features

- **Multi Device - Improved Experience:** Determine earliest release vehicle at Sonos to support.
- **Cloud Queue:** Design in progress
- **SMAPI Improved Experience:** Sonos to provide proposed API changes and timing. Discuss at weekly sync meeting.
- **iOS Support:** Design in progress
- **SMAPI Playlists - Improved Experience:** Sonos to provide proposed API changes and timing. Discuss at weekly sync meeting.

OPEN ACTIONS

Item	Owner	Date
Send justification on increasing SMAPI ID length	Christopher	TBD
